1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by applicant's Prior art (Fig. 3).

Regarding claim 1, the prior art discloses an animated flute comprising an air bag (B) which is made of to an animated shape and being secured to one end of said flute (A) through an air passage (Fig. 1 shows an air passage), and said air passage comprising at least one air outlet (B1).

Regarding claim 2, the prior art discloses said air passage is in a straight shape (Fig. 1).

3. Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest in claim 3 that said air passage is in a curved shape, and in claim 4 that said air bag and said air passage are in different directions as set forth in the claimed combination.
